Mr D. ROBERTSON CAMPBELL, L.D.S.

TREASURER.

Mr THOMAS WALLACE, F.F.A., 64 Princes Street, Edinburgh.

SECRETARY.

Mr G. M. STUART, W.S., 56 Frederick Street, Edinburgh.

MECHANICIAN.

Mr WILLIAM MEIN.

JANITOR.

Mr WILLIAM MACDONALD.

REPORT.

THE FOURTH ANNUAL GENERAL MEETING OF THE INCORPORATED EDINBURGH DENTAL HOSPITAL AND SCHOOL was held at 31 CHAMBERS STREET, on Thursday, 16th January, 1896, at 5 P.M., when there was a good attendance of members. The Dean presided.

The Minutes of last General Meeting were approved.

The Treasurer (Mr T. Wallace) submitted his Accounts, with the Auditor's Reports thereon, which, on the motion of Mr Wilson, L.D.S., seconded by Mr Amoores, L.D.S., were adopted.

The Secretary (Mr G. M. Stuart, W.S.) then read the Directors' Report, which was as follows:—

“The Directors have the pleasure of submitting for the consideration of the Members of the Incorporated Edinburgh Dental Hospital and School their report on the work and events of the year 1895. Notwithstanding the slight falling off in the number of operations performed, and also in the number of students who have attended the Hospital and School, the Directors consider the statistics encouraging, as it must be borne in mind that the numbers recorded in 1894 were the largest ever reached in the history of the Institution. The following are the respective numbers during the last four years:—

	1892.	1893.	1894.	1895.
Number of Operations :	8910	11,621	17,095	16,546.
Number of Students :	30	37	52	47.

“The operations in 1895 consisted of—

Manufacture and Supply of Dental Appliances, -	160
Teeth Preserved by Stopping, - - - -	4411

Extractions, of which there were—

Under Anaesthetics, - - - -	3909
Without Anaesthetics, - - - -	8066
	<hr/>
	11,975
Total, -	<hr/>
	16,546

214 different persons were given chloroform, and 330 nitrous oxide gas.

“As compared with the previous year, the Directors do not view the financial position of the Hospital and School with so much satisfaction. They had not unreasonably hoped that the bank balance at the close of the year would have been on the right side, and it is with regret that they have to report an overdraft of £194, 1s. 7d, being an increase of about £40 over that of the previous year. An additional £100 was borrowed on debentures, so that the capital of the Institution has been reduced by £140 during the year.

“The special contributions amount to £345, 13s., including the sum of £200 voted by the Town Council of Edinburgh out of the Residue Grant for providing furnishings and equipment for the technical education of students, and £105 by the Royal College of Physicians of Edinburgh. The Directors desire to record their sincere thanks to all the contributors, and to express the hope that they will further support the Institution by consenting to become life members, for which they are qualified in terms of the constitution.

“The extraordinary expenditure, which includes the balance of the accounts for the alterations and furnishings of the new premises, amounts to about £720, which has been met by the special contributions, the balance of ordinary revenue over expenditure, and the additional loan of £140 as above mentioned.

“In this connection the Directors have great pleasure in announcing that one of their number, Mr Malcolm MacGregor, has generously presented to them the sum of £150, being the amount of Debentures held by him, for the purpose of providing for the annual presentation of the MacGregor Gold Medal, to be awarded to the best all-round student of the year, as decided by ballot of the Senior Students, the balance of interest to be accumulated in the meantime to form a prize fund.

“The ordinary Revenue shows little change, being only a

diminution of £17. The students' fees are smaller by £20, but, on the other hand, the receipts from patients are £36 more, the difference being practically all accounted for by the smaller sum entered under the heading of rent, the previous year's accounts having contained a half year's rent of 31 Chambers Street, which was received from the former tenants before the house was occupied by the Hospital and School.

"The Directors, while returning thanks to the Annual Subscribers, have again to regret the gradual falling off in the number and amount of these subscriptions, which this year only amounts to £41, 8s. 9d.

"The ordinary expenditure has, as was expected, risen considerably, nearly all the items showing an increase. The Directors anticipate that the annual expenditure will tend to increase, from year to year, with the growth of the Institution.

"During the year the Directors have promoted Mr J. S. Amoores and Mr J. Graham Munroe to the Dental Staff, vacancies having been caused by the resignations of Mr Wilson and Mr Forrester. The resignation of the former was referred to in last report, and that of Mr Forrester was accepted with regret by the Directors in the course of the past year.

"The Dental Surgeons have all been re-elected for five years from this date. The Directors, having determined to increase the number of Assistant Dental Surgeons to twelve, the following gentlemen were appointed, viz.:—Messrs Sewell Simmons, R. N. Hannah, Fred. J. Turnbull, J. Malcolm, Robert Lindsay, D. Baillie Wilson, and Thomas A. Mackintosh. The other Assistant Dental Surgeons have been re-elected, and the whole assistant staff have, in accordance with the resolution of the Directors, been elected for a term of five years from this date. Mr John A. Young has been appointed *interim* Assistant Dental Surgeon in place of Mr John Turner, to whom leave of absence, on account of illness, has been granted. Mr D. Chisholm Robertson was appointed Tutorial Dental Surgeon for one year, in place of Mr Robert Lindsay, resigned.

"There will, in future, be one Dental Surgeon and two Assistants present every week-day morning from 9 to 10, in addition to the Tutorial Dental Surgeon, who is present every day from 9 to 11, for the instruction of the Students.

"The Directors desire to return especial thanks to the Dean, and also to the whole of the Staff, for the time, attention, and professional experience which they have, one and all, so ungrudgingly given during the past year. They would also direct the attention of members, subscribers, and the public generally,

to the fact that, not only do the Dental Staff receive no pecuniary recompense for their work, but that, owing to the nature of the profession, the time thus occupied must often involve a loss to their own private practice. Other similar institutions recognise this, and apportion the whole of the Students' fees among the Dental Staff, and their action seems to be approved of by the public, who subscribe to the funds of the Hospitals more than sufficient to meet all the ordinary expenditure, notwithstanding the fact that there are, in some of the Hospitals, practically no charges made against the patients. The Directors do not consider that this is at present advisable, and certainly not practicable, but they might point out that, if the Edinburgh Dental Hospital were to be carried on in similar lines in these respects to some of the large Dental Hospitals in England, the public would have to subscribe at least fourteen times as much as they do at present.

"Mr Amoores having, in consequence of his election to the Dental Staff, resigned his post as an ordinary Director, the Directors, acting in accordance with powers contained in the constitution, unanimously elected Mr Wilson to fill the vacancy. He now falls to retire along with Dr P. Hume MacLaren, Mr Thomas Wallace, and Mr Charles Matthews, who retire by rotation. Vacancies are also caused by the Right Hon. Lord Provost MacDonald and Bailie Kinloch Anderson having been nominated by the Town Council as Directors in accordance with the powers conferred on them by the Special Resolution passed at last Annual General Meeting, and subsequently confirmed. There are thus six vacancies in the Directorate, which fall to be filled up at this meeting. The Board of Directors has been further increased by the Royal College of Surgeons of Edinburgh nominating Professor Struthers, their President, as their representative, and the Directors take this opportunity of congratulating the members on having thus officially recognised, and been recognised by, the College with which they are so closely connected. The Directors approve of the proposal that a similar privilege of nominating a representative to the Board be granted to the Royal College of Physicians of Edinburgh.

"The Odonto-Chirurgical Society of Scotland have nominated Mr Malcolm MacGregor to be their representative on the Board.

"Signed by authority and on behalf of the Directors,

"W. BOWMAN MACLEOD, Dean.

"G. M. STUART, Secretary."

On the motion of Mr Hepburn, L.D.S., seconded by Dr

Philip, the report was adopted, and ordered to be printed and circulated among the Subscribers.

On the motion of Mr Hume Purdie, L.D.S., seconded by Mr Marr, Dr P. Hume Maclaren, Mr Andrew Wilson, and Mr Thos. Wallace, were re-elected, and Mr Robert Cox of Gorgie, M.P., Mr R. L. Stuart, W.S., and Mr R. K. Inches, were elected Directors.

On the motion of Mr Lowe, seconded by Mr Watson, L.D.S., Mr Robert A. Marr was re-elected Auditor.

On a motion from the Chair, the meeting, in return for the handsome contribution of £105 to the funds of the Hospital, granted to the Royal College of Physicians of Edinburgh the privilege of nominating one of their Fellows to be a Director of the Incorporated Edinburgh Dental Hospital and School.

A vote of thanks to the Chair closed the proceedings.

Note.—A Report of the work done in the School is published annually in August, along with the Prospectus for the ensuing Session. Copies of the last Prospectus may be had on application to the Dean.

ABSTRACT of the ACCOUNT of CHARGE and DISCHARGE of the
INTRONMISSIONS of Mr THOMAS WALLACE, as Treasurer of the INCOR-
PORATED EDINBURGH DENTAL HOSPITAL AND SCHOOL, from 31st
December 1894 to 31st December 1895.
